Project Title: City of Tulelake Wastewater System Improvements

Project Applicant: City of Tulelake

Project Location (include county): Tulelake (Siskiyou County) California

Project Description:

The City of Tulelake proposes improvements to the wastewater system. This proposed project includes the planning and design to install approximately 4,900 feet of 8" PVC sewer collection piping, replace C Street sewer lift station, replace Park Street sewer lift station, install headworks screening facility, and install screening equipment at lift station. These plans will improve the City of Tulelake wastewater collection system.

This is to advise that the City of Tulelake has approved the above
☒ Lead Agency or ☐ Responsible Agency

described project on 11/25/2025 and has made the following determinations regarding the above
 (date)
 described project.

1. The project ☐ will ☒ will not have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
☒ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures ☐ were ☐ were not made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan ☐ was ☐ was not adopted for this project.
5. A statement of Overriding Considerations ☐ was ☐ was not adopted for this project.
6. Findings ☐ were ☐ were not made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

NEGATIVE DECLARATION—City of Tullake

The following Negative Declaration is being circulated for public review in accordance with the California Environmental Quality Act Section 21091 and 21092 of the Public Resources Code.

Project Name: City of Tullake Wastewater System Improvements

Project Applicant: City of Tullake

Project Location: The proposed project components are located at various locations throughout the incorporated areas of Tullake, California, Siskiyou County. Total area of impact is approximately 7.3 acres. Some of these sites are located on public city property. Sewer lines are proposed on Sixth Alley from Modoc Avenue to F Street, Fifth Alley from Modoc Avenue to F Street, Fourth Alley from C Street to F Street, and the alley of Park St from G Street to Ridgeview St. Manholes are proposed at sixteen locations on public city property including the intersection of Modoc Avenue and Sixth Alley, intersection of E Street and Sixth Alley, intersection of F Street and Sixth Alley, intersection of Modoc Avenue and C Street, intersection of D Street and Fifth Alley, intersection of E Street and Fifth Alley, intersection of F Street and Fifth Alley, intersection of Siskiyou Street and C Street, intersection of Park Street and G Street, intersection of Park Street alley and G Street and to the east of Ridgeview Street. Two proposed lift stations are located at the intersection of Siskiyou Street and C Street and Park Street and G Street. A headworks screening facility is located on one parcel (APN 050-051-010) adjacent to the Tullake Wastewater Treatment Plant located east of Dean Callas Way. The project area is owned by the City of Tullake and is in Township 48 North, Range 04 East, Section 35 of the Mount Diablo Meridian.

Description of Project: The City of Tullake proposes improvements to the wastewater system. This proposed project includes the planning and design to install approximately 4,900 feet of 8" PVC sewer collection piping, replace C Street sewer lift station, replace Park Street sewer lift station, install headworks screening facility, and install screening equipment at lift station. These plans will improve the City of Tullake wastewater collection system.

Findings:

This is to advise that the City of Tullake, acting as the lead agency, has conducted an Initial Study to determine if the project may have a significant effect on the environment and is proposing this Negative Declaration based upon the following findings:

☒ The Initial Study shows that there is no substantial evidence that the project may have a significant effect on the environment and a Negative Declaration will be prepared.

☐ The Initial Study identifies potentially significant effects but:

- (1) Proposals made or agreed to by the applicant before this proposed Mitigated Negative Declaration was released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur.
- (2) There is no substantial evidence before the agency that the project may have a significant effect on the environment.
- (3) Mitigation measures are required to ensure all potentially significant impacts are reduced to levels of insignificance.

A MITIGATED NEGATIVE DECLARATION will be prepared.

If adopted, the Negative Declaration means that an Environmental Impact Report will not be required. Reasons to support this finding are included in the attached Initial Study. The project file and all related documents are available for review at the City of Tullake City Hall located at 591 Main Street, Tullake, CA 96134 (530) 884-4666.

NOTICE

The public is invited to comment on the proposed Negative Declaration during the review period.

11/25/2025

Date of Determination

Jenny Coelho, Chief Resilience Officer

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Potentially Significant Unless Mitigated" as indicated by the checklist on the following pages

- | | | |
|---|--|--|
| ☐ Aesthetics | ☐ Agricultural/Forest Resources | ☐ Air Quality |
| ☐ Biological Resources | ☐ Cultural Resources | ☐ Energy |
| ☐ Geology and Soils | ☐ Greenhouse Gas Emissions | ☐ Hazards/Hazardous Materials |
| ☐ Hydrology/Water Quality | ☐ Land Use/ Planning | ☐ Minerals |
| ☐ Noise | ☐ Population and Housing | ☐ Public Services |
| ☐ Recreation | ☐ Transportation/Traffic | ☐ Utilities/Service Systems |
| ☐ Mandatory Findings of Significance | | |

Determination (To be completed by the Lead Agency)

On the basis of this initial evaluation:

- ☒ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- ☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- ☐ I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- ☐ I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.
