Protection Time/ Temp.	1	Food Temp.			<p style="text-align: center; margin-top: 0;">FOLLOW-UP COMPLAINT INSPECTION CONDUCTED ON THIS DATE</p> <p>Today's visit is to follow-up on a complaint inspection that was conducted on 09/16/2025 that confirmed facility had an infestation of fruit flies and issue with flies at produce area. The following information are findings from observations conducted today:</p> <p>No evidence of fruit flies observed at front produce area. Facility has washed and cleaned the bottom of all produce stands from old secretion of fruit juice.</p> <p>25) Observed flies at mop sink and produce area. Additional insect control devices like an air curtain can be installed over front door opening and insecticide-free fly ribbon can be installed at mop sink area. Food buildup and slimy drains are potential breeding grounds and attracts or harbors insects. Wash, clean, and sanitize or correct immediately.</p> <p>25) 2nd Notice- Observed fruit flies at customer produce area. The amount observed is extremely less than what was observed during previous inspection. Facility has reduced the quantity of displayed produce and increased inspecting and discarding spoiled produce. Continue to monitor/quality control produce to eliminate insect food and breeding sources from spoiled produce.</p> <p>Future non-compliance will result in additional reinspection fees, administrative hearing, and potential permit revocation.</p> <p>Continue to maintain cleanliness of facility to prevent insect issues from reoccurring. A follow-up inspection is no longer required.</p>
