Food Safety Certified Employee: Robert Malanga	Expiration Date: 02/2030

		MAJ	OUT	COS	The marked items represent Health Code violations and must be corrected as follows:
Protection Time/Temp.	1 Food Temp.				<p>FOLLOW-UP INSPECTION CONDUCTED THIS DATE</p> <p>36) This facility was closed on 11/05/2025 for leaks in the roof throughout the facility. This is a repeat violation and the facility has worked on repairing the leaks previously this year. Observations during this follow-up inspection revealed that there still exist numerous leaks throughout the facility. However, the bar portion of the facility is free of active leaks currently, and is approved to open.</p> <p>The kitchen is not approved to be opened/utilized until the roof has been repaired, the violation is completely abated, and this department has approved kitchen use after a reinspection. Currently, there are puddles of water and grease on the floor under the hood, where active leaks are coming through the hood system.</p> <p>If any leak develops over the bar area, then the entire facility must be closed.</p> <p>Call this facility for a reinspection when the roof has been repaired and all leaks abated.</p>
